MAJIC 38-Pin ARM/ETM Rev1 Cable Kit: CK-ARM38-1

This kit connects a MAJIC or MAJIC^{MX} to an ARM or XScale target system with the 38-pin high density "Mictor" connector, with the ETM Rev1 pin-out. A Target Adapter Module is installed on the target, and the 20-pin cable connects from the MAJIC to the Target Adapter Module.

Part Number	Description
0330-0115-10	20-pin ARM Target Connection Cable (the red stripe indicates pin 1)
0330-0130-10	38-pin ARM Target Adapter Module

Note: 1) Refer to the *MAJIC Interface Specifications for ARM and XScale* application note for details on the target connector pin-out.

2) Jumper J4 should be set to select TCKA. The TCKB option is reserved for future use.
