MAJIC 52-Pin EJTAG 2.0 Cable Kit: CK-EJ52

This kit connects a MAJIC or MAJIC^{MX} to a target system with the standard 52-pin EJTAG connector via a 20-pin to 52-pin Target Adapter Module. The spacer board may be installed between the target board and target adapter module for increased vertical clearance, if necessary.

| Part Number | Description |
|--------------|---|
| 0330-0007-10 | EJTAG 20-pin Target Connection Cable (the red stripe indicates pin 1) |
| 0330-0006-10 | EJTAG 20-pin to 52-pin Target Adapter Module |
| 0330-0064-10 | 52-pin EJTAG Spacer Module (optional) |

Note: 1) Refer to the *MAJIC Interface Specifications for EJTAG* application note for details on the target connector pin-out.

2) The 32-pin connector on the Target Adapter Module is not used in this application.
