MAJIC 14-Pin TI Cable Kit: CK-TX14

This kit connects a MAJIC or MAJIC^{MX} to an ARM target system with the Texas Instruments standard 14-pin connector.

Part Number	Description
0330-0303-10	14-pin T.I. Target Connection Cable (the red stripe indicates pin 1)

Note: The CK-ARM14, CK-MIPS14, and CK-TX14 cables have very different pin assignments. To avoid possible damage to the board, cable, or MAJIC, make sure to use the right cable for your board. Refer to the *MAJIC Interface Specifications* application notes for details on the target connector pin-out.
